acqua che sgorga, scorre e defluisce come da una sorgente. forme lineari dalle morbide sagome, quasi fossero levigate dalla forza della corrente. nel design della collezione 9.15 alla consueta pregevolezza delle ceramiche pozzi-ginori si somma l'eccellenza tecnologica: grazie ad un sistema di troppopieno nascosto, lavabi e bacinelle non presentano alcun foro all'interno. una soluzione di grande limpidezza, estetica e funzionale. il risultato è un ambiente bagno dove il benessere si misura coi sensi.

water that gushes forth, flows and streams away, like a spring. linear, soft shapes that almost seem to have been smoothed by the current. the design of the 9.15 collection combines the usual superb quality of pozzi-ginori ceramics with technological excellence: thanks to their hidden overflow system, these washbasins, both wall-hung and lay-on, have no holes inside them. a clean, handsome, practical solution. the result is a bathroom where you can measure well-being with your senses.

Pozzi-Ginori è storia dell'arte e del design italiani della porcellana da bagno. Le sue origini risalgono al 1735, quando il marchese Carlo Ginori dette inizio, fra i primi in Europa, alla creazione di splendidi manufatti in quel prezioso tipo di ceramica che allora era chiamato "l'oro bianco". La sua Manifattura di Doccia, a nord ovest di Firenze, divenne presto fra le massime d'Europa. Nel tempo, con la Ginori si fusero le altre manifatture ceramiche progressivamente sorte in Italia: prima quella di Giulio Richard, poi la Società Ceramica Italiana di Laveno, quindi la Pozzi. Ognuna di queste, prima da sola, poi integrandosi alle altre, ha segnato le varie tappe della sapienza e della tecnologia italiane nella progettazione e nella realizzazione di prodotti sanitari in porcellana. Con l'iniziare e poi l'affermarsi dei metodi e della prassi dell'industrial design, fin dal 1918 grandi designer hanno contribuito a scandire tali tappe: Giò Ponti, Guido Andlovitz, lo studio Nizzoli, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, Matteo Thun, fra i più noti. Ed ora anche Antonio Citterio. Entrata in Sanitec Group nel 1994, Pozzi-Ginori continua la sua grande tradizione con immutata costante capacità innovativa.

Pozzi-Ginori represents the history of Italian art and design in bathroom ceramics. Its origins date to 1735, when Marquess Carlo Ginori was one of the first people in Europe to begin manufacturing splendid objects in a precious grade of ceramics they used to call "white gold." His Doccia Factory northwest of Florence quickly became one of the largest in Europe. Over time, Ginori merged with other ceramic manufacturers that progressively sprang up in Italy: first, there was Giulio Richard, then the Laveno Italian Ceramic Company, and finally Pozzi. Each manufacturer began on its own, then merging with the others, as they established milestones in Italian technology and expertise in the design and creation of bathroom ceramic products. As the methods and practices of industrial design originated and then asserted themselves, great designers have helped articulate various stages since 1918: Giò Ponti, Guido Andlovitz, the Nizzoli studio, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, and Matteo Thun are some of the better known ones. Now there is Antonio Citterio. After entering the Sanitec Group in 1994, Pozzi-Ginori has continued this grand tradition with its unchanging, constant capacity to innovate.
